

# Which aspect of the webpage do you find most appealing?

# Which aspect of the webpage do you find least appealing?

# Who is most likely to use this webpage?

# How can we improve our webpage? What might it be missing?

It is hard to know the location (online vs. in-person) of the various services. If I was seeking a service I would also like to have some ability to figure out "what I need" and have that direct me.

Integrated into other resources so there is more traffic, more user friendly

More community connections

links to other useful resources / research

Similar to 'More community connections' - A list of affiliate / supporting organisations that are in support of the initiative and/or involved etc.

agree about community elements to let people find local opportunities as actual action is most beneficial to mental health

links to groups like Parents for future, Greens and Cleaner etc, through a finding local community online or in person
